Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

WS-21
Coin wrapping machine

- Compact size ideally suited for use at branch locations
- Offers a high level of performance and low-maintenance operation
- Exceptionally user-friendly operation
WS-21 – Coin wrapping machine

Offers a high level of performance

Tabletop unit for coin wrapping and counting

The WS-21 is a compact tabletop coin counting and wrapping machine, featuring the highest level of performance and product specification in its class. Providing a consistent set of operations for all coin counting and wrapping procedures, the WS-21 is perfectly suited for locations where a compact wrapper is needed, such as financial institutions, retail shops, casinos, railway stations and hotels. The power of the sleek, compact WS-21 comes into full play in a variety of business situations.

Glory – The world’s leading manufacturer of coin wrapping machines

Glory products, backed by our outstanding technologies, promise quality, functionality, operability and durability.

Fast counting and wrapping speeds – the best in its class

- The WS-21 can wrap up to a maximum of 12 rolls per minute – the fastest processing speed for this class of device. The WS-21 can also be used with only the coin counting function.
- The batch coin counting setting can be selected from three preset amounts – unlimited, 500 and 1,000, and can also be user set to any value from 1 to 99,999 coins. The batch coin counting setting can also be user set from 1 to 99,999 rolls.
- The coin hopper holds a maximum of 1,000 coins (coin diameter = 23.5 mm, thickness = 1.5 mm), and the wrapped coin box holds 20 rolls (50-coin rolls, coin diameter = 23.5 mm, thickness = 1.5 mm).
The WS-21 makes it possible to wrap coins in-house

Free your business from the need to outsource coin wrapping work. The WS-21 makes it possible to handle all your coin wrapping needs right where and when your coin needs to be counted and wrapped, at your premises.

Easy-to-use numeric keypad for smooth, efficient operation
All counting, wrapping, and denomination settings can be selected easily from the user-friendly operation panel.

Waste is eliminated thanks to the WS-21’s efficient wrapping paper pickup and selection system
Control functions are activated automatically according to the coin type, and the device structure and design make efficient use of coin wrapping paper. The coin wrapping paper is automatically cut to the right length for the coin diameter — a paper-saving feature that provides waste-free operation.

Easy recovery from coin jams
The WS-21 has a simple design that makes it easy to recover from coin jams in the unlikely event one does occur.

One counter per shop.
One counter per sales counter.
One counter per person.
